# Quotes form community members before:

 "My wife and daughters go 2 kilometers each day to look for water. We lose time we need to use for cultivating and farming. My family gets very tired." – Richard Kingor, local farmer and father of 4

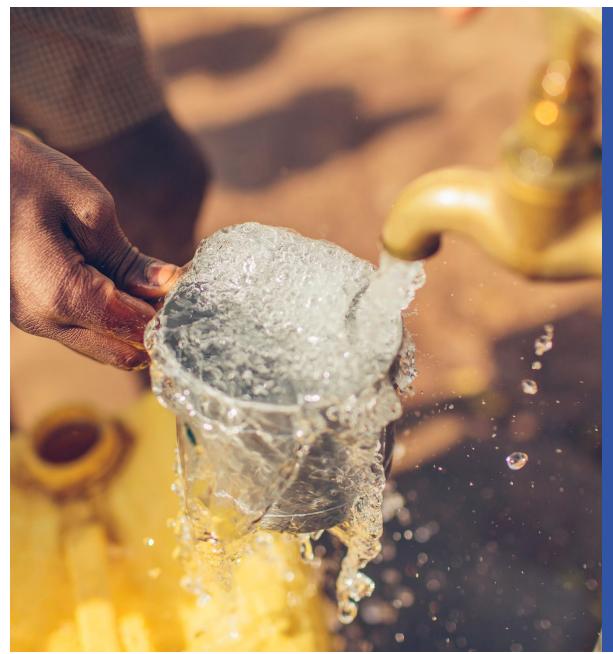

Quotes from community members after:

- "Water related stress has left our family."
- "Our health is improving now that the water is safe."
- "Our market is going to expand due to availability of water."
- "Students will not waste time for studying in search of water."

#### To date, Advintage Distributing has helped to bring safe water to over 300,000 people!
